

SMALL MULTIPURPOSE BOXES WITH LIDS

These boxes are moulded in ABS to give maximum strength but can be easily punched or drilled for individual requirements and to produce a professional looking end product. They are available in black, white or light grey as standard but other colours may be available on request should you require to add that individual touch to your products. The HBT3 has an overall matt finish whereas the T2, T3 and T4 have an overall polished finish.
